

Dishes set design

You have been hired to create a set of dishes with a theme. This can be a theme of your choosing (i.e. nature, candy, animals, swirls etc.) but you must consistently use the same theme for your entire set.

The set of dishes must include the following: dinner plate, salad plate, bowl, glass tumbler, knife, fork, and spoon. You will draw each piece out to the correct size and include colors you would actually use in the dish set.

You will also be mounting these dishes and labeling them according to our professional mounting techniques. Have fun! You are not being graded on your ability to draw but neatness does count as part of the grade.
